

INTERVENTIONAL CARDIOLOGY TRACK (AHA-ICT)

	Saturday	Sunday	Monday	Tuesday	Wednesday				
7:30									
8:00		SMP.603 From Bench to Bedside: PCI for ACS, STEMI and Shock (8-11:50)	HTS.601 Routine or Selective Use of New Lesion Assessments: IVUS and FFR (7:45-8:45)	HTS.604 Tips and Tricks for A Successful Transradial Program (7:45-8:45)					
8:30									
9:00				DS.602 Drug Eluting Stents: A 2009 Update (9-10:15)	Abstract Sessions (9-10:15)	DS.606 Interventional Cardiology High- lights of 2009 (9-10:15)	Abstract Sessions (9-10:15)	SS.09 PCI and STEMI Guidelines: Latest Evidence, Updates and Systems of Care for STEMI (9-10:15)	Abstract Sessions (9-10:15)
9:30									
10:00									
10:30									
11:00			DS.603 Iliac and Femoral Interventions: From Basics to New Approaches (Ask the Experts) (10:45-Noon)	Abstract Sessions (10:45-Noon)	DS.607 PCI Complications and Challenges: Audience Case Review (Ask the Experts) (10:45-Noon)	Abstract Sessions (10:45-Noon)	DS.609 AHA/NHLBI/SCMR 8th Annual Workshop on Cardiovascular Interventional MRI (10:45-Noon)	Abstract Sessions (10:45-Noon)	
11:30									
12:00									
1:00	SAT.601 Percutaneous Treatment for Aortic Valve Disease (1-2:15)	SAT.603 Interventional Fellows and Cardiologists Symposium (1-6)	OPS.01 Opening Session (1-3:15)						
1:30									
2:00									
2:30				DS.604 Industry, FDA, Journals, Senators and Interventional Cardiologists (2-3:15)	Abstract Sessions (2-3:15)	DS.608 Challenges and Complications in PFO/ASD Closures (Ask the Experts) (2-3:15)	Abstract Sessions (2-3:15)	Abstract Sessions (2-3:15)	
3:00	SAT.602 Advanced Coronary Interventions I: Chronic Total Occlusions (2:30-3:45)								
3:30									
4:00			DS.601 Advanced Coronary Interventions II: Left Main and Bifurcation Lesions (3:45-5)	Abstract Sessions (3:45-5)	DS.605 Revascularization for Multivessel CAD: State of the Art (3:45-5)	Abstract Sessions (3:45-5)	PS.09 Percutaneous, Surgical and Medical Management of Hypertrophic Obstructive Cardiomyopathy SS.08 Improvement in Treatment Options for PCI Patients with ACS (3:45-5)	Abstract Sessions (3:45-5)	
4:30									
5:00									
5:30									
6:00		CVS.601 Angiogenesis, Myogenesis and Coronary Syndromes: Surgical and Percutaneous Approaches CVS.604 Controversies in Carotid and Renal Interventions (5:30-6:45)	CVS.608 Improving PCI and AMI Quality: Key Insights from Observational Studies (5:30-6:45)	CVS.609 The NHLBI Dynamic Registry: A 30-Year Journey (5:30-6:45)					
6:30									
7:00									

Interventional Cardiology is located within  **CoreSix** Vascular Disease: Biology and Clinical Science (Catheter-based and Surgical Interventions)
